Experience

Leadership & Activities Vitality Church Media Team Head of IT **01/2024 – Present**

- Managed media team technology by organizing software systems, hardware components, and cable setups, reducing confusion and improving reliability during live services and events.

Full-Stack Web Application Vitality Church Vitalitychurch.org **01/2025 – 04/2025**

- Fully functional dynamic Web Application for Vitality Church of Mentor, Ohio. Web Development project presented at Ashland University's 2025 URCA Symposium.
- Planned, launched, and optimized Google Ads campaigns for the Church, improving online visibility and driving increased traffic to sermons, events, and outreach programs.

Children's Sports Author Web App DrCurtIckes.com **09/2025 – 12/2025**

- Built a responsive web application for a best-selling children's sports author using React and Tailwind CSS.
- Worked collaboratively within a team to manage project milestones and deliver a polished, user-focused product.
- Strengthened skills in teamwork, communication, and project management.

Projects

Personal Portfolio nolankern.com **09/2024 – 10/2025**

- Built a responsive, single-page personal portfolio using React, focusing on clean component architecture and maintainable code.
- Developed reusable UI components, optimized performance, and ensured cross-device compatibility.
- Demonstrated initiative through self-driven project planning, design iteration, and continuous improvement, resulting in a polished and professional online presence.

Neo Web Company NeoWebCo.com **12/2025 – Present**

- Co-Founder of a freelance digital marketing agency that focuses on modern web development, client acquisition, and end-to-end project delivery.
